Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last 15 years, I've worked with students across IB, IGCSE, and A-Level curricula, specialising in Business Management and ICT. My experience spans different international environments, allowing me to connect with students from various cultural backgrounds. This exposure has enriched my ability to adapt my teaching style to best suit each student's individual needs.

Throughout my career, I have guided students in developing high-quality Internal Assessments (IAs) and Extended Essays, particularly in IB Business Management. Having supervised over 200 papers, I take pride in helping students accurately predict results and meet IB standards. This has been instrumental in preparing my students for top grades and their future academic pursuits.

In addition to Business Management, I am well-versed in teaching Computer Science and ICT, covering content from introductory programming to advanced computer applications. I enjoy supporting students in building a solid foundation in both business and technology, preparing them for a variety of pathways in their educational journey.
