Tutoring Experience

Over the past 12 years, I have worked with students from diverse academic backgrounds, guiding them through the intricacies of IB and A-Level Economics. My approach is rooted in making economic theories accessible and relevant, using real-world examples to help students connect theory with practice. I have consistently helped students improve their grades and deepen their understanding of economics.

In addition to IB and A-Level curricula, I have also tutored students preparing for IGCSE and AP Economics, ensuring they are equipped to excel in their exams. Many of my students have successfully pursued higher education at prestigious universities, owing to their solid foundation in economics developed through our sessions.
